WENTWORTH
MILITARY ACADEMY
ESTABLISHED 1880
LEXINGTON, MISSOURI 64067
HIGH SCHOOL AND JUNIOR COLLEGE
WENTWORTH'S PURPOSE

It is the purpose of Wentworth Military Academy to provide the best conditions possible for the all-round development of worthy boys and young men.

To attain this high purpose, the Academy places greatest emphasis upon these four points:

First, it is the Academy's aim to assemble only the highest types of students—deserving youths of good parentage—to assure wholesome associations and greater progress. Every precaution is taken to keep undesirable boys—all those that might prove detrimental to others—out of the Academy.

Second, to employ only men of highest character and ability for its faculty. It is not enough for a Wentworth faculty member to be merely a scholar and a splendid instructor. He must also possess a spirit of friendliness and a sincere desire to give kindly help whenever necessary. He must thoroughly understand the innermost problems of boys—be patient with them—and be ready to serve each boy to the best of his ability.

Third, to provide the very best equipment throughout every department to the end that every boy will have all those things necessary to his health and happiness and that none shall want for anything that will help him to make progress.

Fourth, to provide a program for each day that will best serve the interests of every student.

Since Eighteen Eighty

One of the chief reasons why Wentworth has been able to achieve its lofty purpose lies in the fact that the Academy has been under one continuous administration since its founding. For nearly three-score years, Colonel Sanford Sellers was president of Wentworth. He enjoyed one of the most enviable records in the history of American education.

The Academy was founded by Stephen G. Wentworth, scion of a distinguished English family and a prominent Lexington banker, in 1880, as a memorial to his deceased son, William Wentworth. Mr. Wentworth immediately vested control of the institution in the hands of a board of trustees composed of a duly elected representative of each of the Evangelical churches of Lexington, and a president. Colonel Sellers was called to the new school in its first year and remained as its active head until 1938. Mr. Wentworth served as president of the Board from 1880 until his death in 1897.

It was the firm conviction of the founder, his board of trustees and President Sellers that a military boarding school provides the most effective possible means for giving young men the thorough mental, moral and physical training necessary to develop in them the highest traits of manhood. Thus, Wentworth became the first military school in the Missouri River Valley.

From the beginning the late President Sellers surrounded himself with the ablest faculty available — strong men of proved qualities and Christian character. Under his wise and forward-looking direction, Wentworth has grown steadily. Each year has shown marked improvement over the preceding year. Today Wentworth stands as one of the truly great educational institutions of our country — second to none in the opportunities it offers boys and young men for thorough preparation for professional studies, business and for life.
AN HISTORIC BACKGROUND

Throughout over half a century the Wentworth purpose has remained unchanged. The ideals which led to the Academy's founding and which have carried it steadily forward, shine just as brightly today as ever: the desire to give each youth every opportunity to develop fully his own individual personality; the aim that every cadet shall acquire a keen sense of duty and responsibility, both to himself and toward others; that he shall have the mental and moral power to make accurate judgment between right and wrong and the physical power to stand by his convictions.

These high standards have dominated Wentworth for generations. But to maintain them and assure their full and continuous application, it has been found necessary to limit the enrollment. Wentworth today is a relatively small school—many times larger than in 1880, to be sure, yet small enough that every individual student is given the private attention so essential to his all-round development.

The surrounding country affords a wealth of historically important Civil War sites and the town of Lexington itself retains much of the tradition of the old south. Here enthusiasm for the reminders of our country's glorious past is combined with the enthusiasm for modern adventure to promote the rapid development of the boy's mental, moral and physical resources.

The modern, prosperous little city of Lexington is 41 miles from Kansas City, "The Heart of America." This proximity makes available by train, motor car, bus and air all the desirable cultural advantages of a large city without any of its disadvantages.

* Founder of Wentworth Military Academy.

* President of Wentworth Military Academy from 1880 to 1938.
YESTERDAY

Above is pictured the first company ever assembled at Wentworth. From this humble beginning, the Academy has marched forward over a trail of development that has placed it in the front rank of America's best military schools.

and TODAY

The Wentworth Military Academy of today is vastly different from the Wentworth of 1880. From year to year it has enlarged its facilities, increased its enrollment and changed its physical appearance until there is little to remind one of the early days. Numerous modern and attractive buildings have been erected as they were needed. Old buildings have been torn away when they were no longer useful. Spacious military and athletic fields have been added. One of the finest Field Houses in the country has been built. Every new method in teaching that has been found definitely superior to older methods has been adopted. Yet, some of the fundamental principles that guided the first company are adhered to just as strictly today.
MILITARY training at Wentworth has been a strong feature since 1895 when the first active army officer was detailed to the Academy but has never been permitted to interfere with scholastic work.

Today the Reserve Officer Training Corps program (ROTC) at Wentworth is administered by Regular Army personnel, consisting of three commissioned officers and six non-commissioned officers, who are in charge of instruction.

Cadets are taught the theoretical aspects of the basic military subjects through formal classroom type instruction. Each Wednesday afternoon during the regular drill period the cadets apply those fundamentals learned. During the fall and spring of each school year the cadet corps participates in a field training program during the drill period. Initially, stress is placed on proficiency of the individual in such subjects as first aid, physical fitness and individual combat training. Later through instruction in combat formation, battle drill, patrolling and bivouac training. During the spring this training is culminated when the cadet corps participates in a field exercise which includes a tactical march and overnight bivouac.

Through participation in the ROTC six year Military Schools program, a cadet receives all necessary ROTC training to qualify for a Reserve Army Commission once he has attained a baccalaureate degree.

Wentworth is proud to be one of the original Honor Schools of the United States, the highest rating given by the Department of the Army.
Patriotism is no sham at Wentworth. Every cadet is taught the real meaning of our flag. Each day, with appropriate ceremonies, the Stars and Stripes are raised and lowered on the towering flag pole.
ADMINISTRATION BUILDING

Within Wentworth's Administration Building are handsomely furnished parlors, corridors and reception rooms. Among its furnishings and decorations students and guests alike find many articles of interest and rare beauty. Its comfortable furnishings amid peaceful surroundings afford a homelike atmosphere where the new cadet readily adapts himself to wholesome, happy experience. Here in an atmosphere of quiet dignity, every student is privileged to entertain his guests or to spend his leisure moments as governed by his daily schedule. None of the comforts of the modern home have been excluded in Wentworth's plan to provide the finest training and quarters available.

* In this view of the main lobby of the Administration Building, cadets are shown admiring a replica of the Declaration of Independence and Constitution donated to Wentworth by the late Mr. L. Fred Evans, Vice-President of Emery Bird Thayer of Kansas City.

* (Above) The corner of one of the attractive parlors where cadets receive their guests.

* (Right) This view partially illustrates the homelike surroundings of the reception rooms.

* [Right] This view partially illustrates the homelike surroundings of the reception rooms.
Nature and man have joined forces at Wentworth to produce a campus of outstanding beauty. Magnificent trees, of many varieties, blend in perfect harmony with modern, attractive buildings and spacious grounds. The Academy is located just at the edge of Lexington and covers 52 acres. The front campus extends over four city blocks and is dotted with massive elms and glorious flower banks that provide enchantment and inspiration. The back campus includes athletic and military fields and the new stadium. There are ten thoroughly modern buildings on the campus, each built for the exact purpose it serves. They are of brick and stone construction and are heated by steam and hot water.
The Wentworth Country Club

Located on one of the most beautiful spots overlooking the Missouri River, the Golf Course and Country Club add variety to the many facilities available to the Wentworth students. The nine-hole golf course is most attractive and sporty. The club house, with its catering equipment, is ideal for many informal parties held throughout the year. And in the stable are found horses suitable for the tyro as well as the expert rider.

* Looking over the River from the Wentworth Country Club Porch.

* Teeing Up

* Two stylish mounts. Every Wentworth student will ride.

* Interior of the Club House—available for many informal gatherings.
One of the spacious, well lighted and immaculate corridors in the Sellers-Wikoff Scholastic Building.

Wentworth's up-to-date Sellers - Wikoff Scholastic Building is the nucleus of the scholastic department. This magnificent structure contains one of the most splendid libraries possessed by any institution of this kind. Four completely equipped laboratories provide excellent facilities for the practical study of the sciences. In addition to classrooms for all classes, it houses the Dean's and Commandant's offices. It is with justifiable pride that Wentworth points to this new achievement in its effort to provide surroundings which are conducive to academic advancement.

The attractive library contains thousands of volumes, providing every necessary supplement to the student's texts and manuals.

Visual Aids are being used to a great extent to supplement lectures by instructors. The Academy has the best equipment available and has established a liberal budget for rental of motion pictures for class work.
Geology is a science of particular interest to boys of the midwest.

The scholastic department is divided into two separate and distinct units: the high school, which offers four years of preparatory work, and the junior college, which offers two years of liberal arts and science. Each has its own organization separate from the other. Both divisions are fully accredited by the North Central Association of Colleges and Secondary Schools, an organization composed of the leading colleges and preparatory schools in twenty states. This recognition means that graduates of either department are eligible to enter any institution in the United States that receives students by certification.

It is our aim to see that each cadet masters every lesson thoroughly. To accomplish this, every student is taught correct study methods and thoroughly schooled in correct uses of libraries and laboratories. Classes are small, which permits individual attention. Most of the faculty members live in the buildings with students. They are readily accessible for special help. From time to time a personal study is made of each cadet to determine his points of weakness and help him overcome them.
A valuable addition to the Wentworth campus is Sandford Sellers, Sr. Hall, a three-quarter million dollar air-conditioned junior college dormitory and kitchen and dining hall wing.

The building is named after the late Col. Sandford Sellers, Sr., president of Wentworth for 52 years. He was the father of Wentworth's present president, Col. James M. Sellers.
SR. HALL

The three-level building of stone and brick construction houses 124 cadets and three faculty supervisors, and also includes lounge, recreation and meeting rooms.

The dining hall section, also air-conditioned, has a seating capacity for 670 persons. The kitchen is spacious and modern in every respect and its equipment compares with that found in the kitchens of the country's leading hotels.
Our new Field House is a beautiful $1,000,000.00 structure containing some 65,000 square feet of space. The main floor contains three large regulation basketball courts; a six-lane indoor grasstex track with a 75 yard straightaway, pole vault and jumping pit; two large varsity locker rooms with drying facilities, a weight room, training room with therapy...
DOLLAR FIELD HOUSE

Interior view of Million Dollar Field House. Three regulation Basketball Courts and eleven lap to the mile Indoor Track

DOLLAR FIELD HOUSE

machines; equipment room and handball court. On the second floor there is a wrestling room to accommodate two 24 x 24 mats, gymnastic room, equipped with parallel and horizontal bars, horses, trampoline, rings and other apparatus; golf and tennis room, and shuffle board courts. It also includes a very beautiful Olympic size swimming pool, colorful and up-to-date in every way.
AVIATION

Wentworth participated in the Federal Aeronautics Administration Civilian Pilot Training Program from its inception in 1939 through the change to C. A. A. War Training Service until June, 1943, when all but 80 out of 712 colleges and universities throughout the country were eliminated due to curtailment of this type of training. However, the academy administration, believing aviation training to be very important now and in the future to the youth of the nation, secured permission from F. A. A. officials to continue flight training on a civilian basis and at the expense of the trainees.

Wentworth operates in conjunction with the Earl Haines Flying Service at the Lexington Airport as a certified flying school fully approved by the F.A.A. The flight training program, including ground school, far surpasses the minimum requirements set forth by the Federal Aeronautics Administration qualifying cadets for Private and Commercial Pilot Certificates. It consists of instruction in both dual and solo flight time.

The records of the graduates of the Wentworth Flight Training are outstanding. During the war the graduates of this training program fought on every front where Americans were in combat.

Flight Instructor Leroy Dyer gives final instructions to cadets before take-off. Not one student flyer has suffered an injury since the start of the program in 1939. Lt. Col. W. L. Stagner, aviation co-ordinator, supervising a class in navigation and giving personalized instruction to aviation students.

Flight Operator Vernon Van Camp instructing cadets in aircraft engines. A fully equipped shop and hangar are maintained at the airport.
From Reveille to Taps
A DAY AT WENTWORTH

No two days at Wentworth are quite the same, for a widely varied program of scholastic, military, athletic and other activities is used to keep the interest of the cadets at high pitch and their appetites for learning well whetted. Furthermore, no two students have quite the same duties to perform throughout any given day. There is, however, a definite routine that all cadets follow each day. It is used to instill perfect regularity and promptness in attendance upon all duties prescribed for one and all cadets alike.

While it requires some adjustments for new students to become accustomed to this routine, any slight hint of monotony is soon lost in the kaleidoscopic whirl of the school year.

To give parents and others a better insight, the following pages have been used to set forth, pictorially, the day's activities from Reveille to Taps, of a typical Wentworth boy whom we will designate as Cadet Harlan.

The pictures in this section were taken several years ago. However, since they illustrate life at Wentworth of today, they are still timely. They are retained because so many of the cadets shown served in the Armed Forces of their country and as well illustrate the value of military training as required while at Wentworth.

Since the importance of military preparedness is becoming increasingly evident by the changing world situation, the training illustrated in this picture section has a special significance.

There have been some uniform changes as may be seen by referring to the section on Wentworth uniforms.
HERE is Harlan, a typical Wentworth cadet—a fine young American—manly, scholarly and upright. His respect for duty and responsibility has won for him the rank of sergeant. He may have come from a large city or a very small town—that makes no difference to the democratic spirit that prevails at Wentworth. He may be from a wealthy family or a family in meager circumstances—most of his classmates would never know, nor even be curious, unless he chose to tell them. But he typifies all the fine qualities of a deserving and ambitious youth as he goes through the tried and age-proved Wentworth process of becoming a real man, a real asset to himself, his family and friends, and society as a whole.

Harlan, like all the others, participates in many activities besides those shown. But let's follow him through a typical day.

* * *

*Harlan "Butch" Heffelfinger, who graduated in the class of 1936 and posed as the model cadet in the view book, served as a Major in the last war and at present is a retired army officer in the state of California. His brothers Hugo and Arthur also attended Wentworth. Hugo, a Major, served with distinction with the Rangers. Arthur served with the Navy Air Corps as an Ensign and presently teaches school in Missouri.
* Harlan's first duty is a thorough, refreshing wash before breakfast.

"I CAN'T GET 'EM UP," blows the bugler, but he does, and at 6:35 o'clock another day is under way. Cadet Harlan goes first to the sanitary lavatory on his floor. A good washup is part of the routine, for a cadet is expected to keep himself clean at all times. At 6:50 he goes to a well-prepared breakfast.

After breakfast, rooms must be cleaned. One of the basic aims of our system is to form personal habits of order. Each morning Harlan makes his own bed, puts his clothes in order and helps his roommate clean the room.

* Harlan makes up his own bed.
Strict inspection of quarters is a daily routine. Formal inspection of Harlan's person, room and equipment occurs on Sunday morning. At this time unusual care must be taken in cleaning the room. Our friend sees that hidden corners are carefully dusted, chairs polished, and everything put in order. Then he takes care of his person. There's brass to shine, leather to polish, hair to brush, and whiskers to be removed. A certain time is allotted for this preparation and all work must be done within that time. This young fellow knows that any deficiency in this work receives what is known in Academy language as a "skin"—which counts against one's company in color competition.

*Harlan is ready for the inspector—brass gleaming, shoes shined—room as clean as the proverbial "hound's tooth."
Here Harlan delves into things scientific. Modern equipment is provided for all laboratory work.

At 8 o'clock in the morning, classes convene, Harlan makes his way to a small class on his schedule where personal attention is his at any time it is needed. Our cadet is carefully instructed in the handling of delicate scientific equipment. He is not forced to grope blindly for information. That which is true of the science laboratories is equally true in all other classrooms.

Time passes rapidly in the classroom or laboratory because the work is interesting. The scholastic day is divided into two equal parts, with four classes in the morning and two in the afternoon.
Our Cadet goes through a course of calisthenics to promote grace and health.

All the cadets shown in the picture were in the Armed Service.

Calisthenics play an important role in the physical education of Cadet Harlan.

No effort is made to indulge in this or any other exercise in the early morning hours when the body is at its lowest ebb. All such exercises are taken by our cadet after a hearty breakfast and morning classes. The exercises are intended to promote graceful movement as well as better health. The calisthenics used by the United States Army are followed. They are led by senior cadet officers.

So long as the weather permits, the calisthenics are held in the open, but they are taken in the large gymnasium, where an entire battalion may take part at the same time, when rain or cold is in the air.

*The ten excellent tennis courts are always popular.*
Calent Harlan reports to the Professor of Military Science and Tactics for drill duty.

Cadet Lieutenant Jack Ramsdell commanding the platoon shown in these two views, participated as an officer in the landing on North Africa. He was decorated with the Silver Star for heroism in action and Purple Heart.

Drill is a very formal affair. It is on the drill field that Harlan learns much of courtesy, discipline and alertness. He, with his entire battalion, is thoroughly schooled in good citizenship, taught the proper respect for superiors and trained in leadership.

Learning to drill a squad is the first training in leadership. Throughout the year squad drill and competition is a part of the regular military routine. The squad is the smallest military unit and consists of nine to twelve men, two of whom are sergeants. All instruction is conducted by cadets under the personal supervision of members of the military faculty.

Although military work takes but one hour each day, the training is intensive and much more thorough than that found in larger units. Personal attention is given the individual cadet on the military field as well as in the classroom, and each cadet has an equal chance to advance to important positions in Wentworth's military realm. In the army, the navy and the marine corps Wentworth is glorified by its alumni who have received their commissions and are distinguishing themselves in official capacities of these respective branches of service.
Like many other cadets, Harlan finds the extended order drill more interesting. This drill consists of combat methods. He is taught to make use of cover, to advance and to fire. No actual firing is done during this drill, however, for all the ammunition used is dummy material. Initiative and leadership are required in this work. Situations arising in the problems furnished by the Department of the Army call for quick thinking and immediate action.

Here our typical cadet finds extended order drill interesting and instructive.

The Cadet Officer using the field glasses was Captain Woodrow Wylie, U.S. Army, who participated in the fight on Bataan.

The cadet about to insert the cartridge in his rifle is Lieut.-Colonel Milton Moran, U.S. Marine Air Corps. He participated in considerable action in the South Pacific.
Eating — an always-popular “sport” with Harlan and his fellow cadets! Meal time is always a time for good food and good fellowship.

The Faculty Officer at the head of the table is Major Robert D. Hepler, assistant dean. The lady is his wife, Mrs. Beth Hepler, the academy’s hostess and social director.

Following the morning classes comes lunch time and our cadet is ready to eat. Academy menus are always varied and pleasing. Meals are carefully planned to suit the needs of all cadets. They are healthful and nutritious and just what active, hard-working boys require. Meal times are at 7:00 in the morning, 12:10 and 6:10. This schedule is varied only on Sunday, when dinner becomes a more elaborate meal served at 12:30.

After dinner there is a recreation period during which Harlan and other cadets may do pretty much as they choose. The recreation room is a popular place at this time.
Maybe Harlan is "behind the 8-ball" here! Like all other cadets he takes part in zestful competition in the recreation room.

The television set in the recreation room enables cadets to enjoy their favorite programs.

The recreation room proves a haven of rest, relaxation and zestful indoor competition. Pool, billiard and ping-pong tables are provided. A few try their hand at bridge, while others read, or relax in comfortable chairs.
Our friend attends an assembly in chapel period, held twice each week.

"We must get in there and fight!" says Harlan as he makes a short "pep" talk on the eve of a game.

CADET HARLAN attends interesting, informative, and inspirational meetings in the chapel, immediately before lunch on Wednesdays and Saturdays. These meetings are conducted by the Academy Chaplain, but are not strictly religious. Travel talks, health lectures, scientific demonstrations and short sermons, presented by outstanding speakers, are frequently on the program. The service is opened with a hymn, prayer, and responsive readings, and closed with the singing of "Wentworth," the Academy song.

"Pep" meetings, preceding important athletic contests, are held in the gymnasium. These are always occasions of great fun. Students and faculty make rousing speeches. The cadet band furnishes gay, martial music and everyone anticipates the big game on the morrow. Athletic contests are important recreational events. Every cadet attends them.
While a majority of the faculty members live in the barracks with cadets, some live in residences such as this on the campus.

*Our Cadet receives personal attention from a faculty member in the library.*

In this picture, the Tactical Officer, James Simmons, graduate of Wentworth, is now a Colonel in the United States Army. He participated in the capture of Attu, Kiska, Kwajalein, Leyte, Okinawa and Occupation of Korea.

Next to him, Lieutenant Orman, paratrooper, who took part in the Sicilian campaign and the capture of Naples. On the right, Captain James L. Dish, Army Aviator.

PERSONAL attention is not confined to the classroom nor to the evening study periods. Harlan and many other cadets seek assistance in the spacious Academy library. The faculty officer in charge is always ready and willing to help any student, no matter what his problem. Whatever the subject, the faculty officer is qualified to give the guidance needed.

Wentworth’s library is one of the most important places on the campus. It contains more than 10,000 books on nearly every subject one could imagine. Reference books include the famous Oxford English Dictionary and many sets of encyclopedias.
In winter months our boy turns his attention to basketball and other indoor sports.

Training for leadership is important on the football field as well as everywhere else at Wentworth. More than fifty cadets answer the varsity call each year and large squads turn out for company teams. All players receive intensive training, both in the art of the game and in clean sportsmanship.

Football ranks as the number one sport and the Red Dragon elevens are consistent winners. The fine spirit of players and corps is credited with being a strong determining factor in every contest.

In the winter months basketball comes into the spotlight. Again there are the varsity and company teams and a place for every cadet who desires to play. Home games are played in the spacious field house where there are three courts and ample space for spectators.

Wentworth is a member of the Junior College Interstate conference, an athletic association numbering seven schools as members. The Wentworth High School teams are members of the Missouri River Valley conference at this time. Almost every major and minor sport are on the Wentworth program—all played under competent coaches—and every cadet is required to participate.
Ready for his daily plunge in the pool,

"The sparkling, crystal-clear water of the swimming pool is inviting to cadets the year 'round. The pool is an official Olympic size and is the scene of frequent water sports and aquatic meets. It is the purpose to teach every cadet to swim well. The water is warmed to a healthful temperature and kept pure by efficient filtration and chemical treatment.

The gymnasium is 220 x 55 feet. It contains two regular basketball courts, a large stage, locker rooms and showers. Plans are underway to remodel this building into a student union in the very near future.

*Ready for his daily plunge in the pool.
Just before the evening study period is the favorite tune-in time for Cadet Harlan and other radio devotees. Permission to have a radio in the room is regarded a privilege, the abuse of which causes the student to lose this favor.

After thirty-five minutes of recreation following the supper hour, evening study is begun at 7 o'clock. Each cadet retires to his own room for a two-hour period of quiet. There is no stuffy, noisy hall in which cadets are confined. Instead, individual initiative is encouraged. Faculty officers are in constant attendance throughout the period, giving advice where it is needed and encouragement at all times.
TAPS, at which time all lights must be turned out and all cadets remain quiet, is sounded at 10 o'clock. The soft notes of the bugle call to close the activities of an eventful day and the peace of slumber envelops healthy, young bodies until another dawn.

Quiet descends and another day is ended for our busy cadet. Sleep . . . sweet, restful sleep.

TAPS
Fades the light
And afar
Gone the day
Gone the night
And a star
Leaveth all
Speedeth all
To their rest.
An etiquette class.

A well organized program of instruction in social usage is a required course for all students, and advanced classes are available for those who desire them.

Ease of manner in any situation thus becomes natural to a Wentworth Cadet. Many occasions such as these pictured here afford ample opportunity for the Cadets to practice their social graces.

* Mixed parties are held frequently.

* The Fountain adjoining the Recreation Room is popular during dance intermission.

* Off for a canter at the Country Club.

* A well organized program of instruction in social usage is a required course for all students, and advanced classes are available for those who desire them.

Ease of manner in any situation thus becomes natural to a Wentworth Cadet. Many occasions such as these pictured here afford ample opportunity for the Cadets to practice their social graces.
WENTWORTH UNIFORMS

The Wentworth uniforms are made of the finest materials. Beautifully fitted, they are suitable for every occasion, and they include every item a cadet may need.

* The cadet full dress — the officer full dress and the cadet full dress with overcoat.

* The Fatigue uniform — and raincoat.

* Athletic uniform and semi-dress without blouse.

* Officer and cadet in the semi-dress uniform.
The purpose of this book has been to give you an accurate, but necessarily inadequate glimpse of the Wentworth Military Academy and cadet life. In order fully to appreciate the Academy, it will be necessary for you to visit the campus in person, see the beautiful grounds and buildings and meet members of the faculty. The Administration offices are open the year round and your visit will be welcomed at any time.

SUMMER SCHOOL—A military summer school and camp of 8 weeks duration begins in early June. Activities are divided equally between scholastic work and recreation. Instruction is on a tutorial basis and nearly any subject may be taken.
1968-1969 COMMENCEMENT AWARDS

MILITARY DEPARTMENT HONOR CADET GOLD MEDALS—MT 3
John M. Hines, Lawson, Oklahoma. MT 2—Or 1 & 2—Michael D. Valerius, Waynesville, Missouri. MT 1—Bruce A. Schriefer, Lexington, Missouri.

L. STAGNER, Lexington, Missouri.

CLEMENTS MEMORIAL CHEMISTRY AWARD—JUNIOR COLLEGE—Edward L. Collins, Cumberland, Ohio. HONORABLE MENTION—David C. Tapp, Raytown, Missouri. 

BAUCHAR AND LOMB HONORARY SCIENCE AWARD—John C. Andersen, Independence, Missouri.

WRIGHT IMPROVEMENT AWARD—Ronal D. Bowers, Kansas City, Missouri.

ABERNATHY MEDICAL AWARD—Bruce A. Minter, Lexington, Missouri.

OLD BANDMANS—Loren Windmeyer, Grand Pass, Missouri.

NEW BANDMANS—Scott W. Wenzel, Lansing, Kansas.

SECOND GENERATION ALUMNI AWARD—OUTSTANDING COLLEGE GRADUATE—Steven K. Wandell, Lexington, Missouri.

OUR SPACIOUS GYM READY FOR THE ANNUAL MILITARY BALL. Art pictures on the walls and in the center of the gym are by Mr. Bill Mauldin, wartime cartoonist of World War II. Reproductions of these sketches were drawn by the cadets.

WENTWORTH 1962-1963 PHILHARMONIC GROUP — For over 30 years cadets have been attending the regular series of the Kansas City's Philharmonic Orchestra. This year's group is seen here with Hans Schweiger, the conductor, Mrs. Schweiger, and Col. and Mrs. James M. Sellers. Seated is Leon Fleischer, internationally known pianist.

THE 83rd CORPS OF CADETS at the annual WENTWORTH SHOW in the Municipal Auditorium of Kansas City drew a crowd of 10,000 people.

INDIAN GROUP
A group of cadets who meet regularly to study Indian lore, including interpretative dancing. These cadets are shown in costumes which they personally designed and made. The Wentworth Indian group makes a number of appearances in nearby communities during the year. Personnel of the group changes frequently throughout the year.
SPECIAL EVENTS MARKED THE 75TH ANNIVERSARY
OF THE FOUNDING OF WENTWORTH
During 1954-1955

Several special events were held, some pictured here. The first of these was to recognize Founders Day and honor the memory of Stephen G. Wentworth, the founder, and Col. Sanford Sellers, the first superintendent, who served as head of the Academy for 58 years. The speaker and honored guest was ex-President Harry S. Truman, who addressed the Cadet Corps and the guests in attendance and later placed wreaths on the graves of the two men who were honored. Mr. Truman was made an Honorary Colonel of the Wentworth Cadet Corps during the visit he and his wife made to the Academy.

The second event, although an annual one, our Wentworth show in Kansas City had the distinctive 75th Anniversary color.

The third special occasion was one which received nationwide publicity, a re-enactment of the Battle of Lexington which occurred in September of 1861. Joining with the Cadet Corps in actually portraying the Battle were units from the regular Army, the National Guard, and ROTC units of Kansas City. The leading citizens of the City of Lexington, and in fact the whole community, joined in preparation for this very unusual event. As much realism as possible was achieved, even including the cooperation of the elements because it rained continuously during the day, May 12, 1955, on which this event was held, as it had during the actual Battle, according to authentic records. Attending the event were many high ranking Army officers and other distinguished citizens, which made it one of the most remarkable days in the entire history of Wentworth Military Academy and of the City of Lexington.

The Honor Guard, the army drill team of Wentworth, is invited on many special occasions to appear before the public. Pictured below is Secretary of the Army Robert Stevens, accompanied by Charles C. Stephenson, civilian assistant to the Secretary in this area, as they inspect the Honor Guard at the Grandview Air Base during Armed Forces Day, May 21, 1955.
The stage photographed from the rear of the Chapel during Commencement.

THE NEW CHAPEL

An outstanding addition to the facilities of Wentworth is the new chapel used for the first time during Commencement 1955. This building was dedicated November 6, 1955. An electric organ was installed later and was used for the first time during the 1957 Commencement exercises. This building adds much to the life of Wentworth. It is used for assemblies, both religious and secular, for dramas, and for moving pictures, both entertaining and educational, as part of our audio-visual program.

The audience as photographed from the stage during the Awards Ceremony.
September 2—"Welcome back" and "how was your summer", was what the phrase was today as the officers were called back a week early for orientation and promotion. It sure was good to see all my friends again. Everybody had such long hair. Bob's hair really looked weird. Well so much for the first day back at Wentworth.

September 3—Oh, I can't see getting up at these early hours. It's going to take getting used to, of course everything here at Wentworth takes some getting used to. Today was another day of meetings and orientation. By taps, everybody was ready for bed after such a hectic day.

September 4—The football players arrived today to start practice so they can get their 15 days of practice before their first game. More of my friends back for football. The band also came back today, to start band practice. The new boys in the band are so small.

September 5—Half of the new boys arrived today with the other half to arrive tomorrow. They march like they've all got two left feet. I imagine that all of the old boys looked like this when they were new boys. It really tries your patience when teaching the "rats" to march. I spent most of the day guiding the new boys around, helping them get settled in their rooms and answering all sorts of questions from their parents.

September 6—Today, the other half of the new boys arrived. It was a day just like yesterday. I sure will be glad when the 'ball starts rolling' and everything gets underway.

September 7—Today was a day of meetings for both new boys and officers. The new boys met with the Dean, and the officers had their "much looked forward to" meeting with Col. Perry and Capt. Peck. This is about the only meeting that everybody enjoys.

September 8—Got to sleep late today until the old boys, who came back today, came in and awoke me to talk over the summer. Today was the best day so far as I'm concerned because the rest of my friends from last year returned to the campus.

September 9—Today the 89th corps of cadets had their first meeting together as a corps. The Department heads welcomed us all back to Wentworth and wished us all luck through this year.

September 10—Classes started today for all cadets. I'm going to have trouble with my Econ class. I think I'll do all right in the rest of my classes. Tonight, Paul, Steve, Bob and I are going to the show to help fit overcoats. This afternoon the high school cadets finished off the parade field. Tonight I took a soupie and permit and went to the show.

September 12—"Late BRC as usual" which means that everything is moved up one hour. It sure does feel good to sleep an extra hour. Took a soupie and permit tonight and generally relaxed.

September 13—Hurrah, it's Friday again, the last day of the school week. Another relaxing week and coming up. This Sunday will be the first parade this year. It should be pretty interesting, duck full of mistakes. My folks will be down Sunday with some relatives to see a parade.

September 14—Today I spent the morning shining my shoes and brass. I also did a lot of heavy sleeping before BRC. This afternoon, I decided to clean up the room so I wouldn't have to do it tomorrow. Tonight, Bull, Tom, Joe, Steve, Paul, T. J. and I went to the fair to help fit overcoats. This afternoon the high school cadets finished off the parade field. Tonight I took a soupie and permit tonight and generally relaxed.

September 15—Went to church today for the first time since I've been back at Wentworth. I took a soupie and cleaned up my room again for inspection. My folks got here in time for parade. It sure was good to see them again. They had to leave by 4:00. After they left, I went to my church youth meeting that night and saw some slides about these two girls who went to Europe. Finished my accounting mistakes. My folks will be down Sunday with some relatives to see a parade.

September 16—Another blue Monday morning that everybody detests. Didn't do too much today after classes. I studied and then after supper I went to bed.

September 17—Tonight I've got a blind date. She's a friend of Paul's girl. I wonder if she is really blind. The women have their first meeting tonight with Col. Ungles about the rules of the mess hall staff.

September 18—Today for Assembly, the department heads made certain announcements pertaining to their department. This afternoon the drill we were assigned permanent seats in the mess hall. I sit at Capt. Audsley's table. My blind date wasn't too bad last night she wasn't blind any way.

September 19—"Late BRC as usual", but other than that, nothing else interesting happened.

September 20—Tonight the high school football team plays Higginsville high school at 8:00 p.m. I wish the teams luck but Higginsville has a real good team. We have a pep meeting at 7:00 in the field house to get everyone fired up for the game. Bull, T. J. and I worked on the commo stand on the visitors side and whoa a what a gain it was, even though we lost the game.

September 21—This morning I worked in the military department typing out the F.G.O.D. schedule. It was monotonous work, but I finally got it finished. The soccer team goes to William Jewell College tonight to play their soccer team at 7:30 p.m. I sure hope that they win.

September 22—Today was our first dress parade. Last week wasn't a dress parade. Tonight at parade, Stagner, Yano, Bass, Zazenksi, Kwist, Saunders, received their Distinguished Military Student award. They had to pin them on their raincoats, therefore the medals looked pretty funny.

September 23—Today, the high school B Team played Higginsville B team in Higginsville. I think that they're going to win anyway. I hope so. I went to the show tonight since I don't have any classes tomorrow.

September 24—Today all high school students must take the California Achievement test. While they are taking the test all college non-crew students, weapons in the Military Dept. Since I'm on a staff, I got out of cleaning weapons. I did some recreational sleeping all morning. College classes met this afternoon so I couldn't sleep all day.

September 25—No Assembly today, regular fourth hour class instead. For drill this afternoon the corps went on an administrative road march to the Country Club and back. I think the total distance is about 35-4 miles. There were a few blisters since not all the new boy's combat boots were fully broken in.

September 26—No late BRC today. This was a combination of days. This morning, all the cadets went through a "Thorough" physical examination and were fitted for their overcoats. I was lucky enough to help fit overcoats. This afternoon the high school cadets finished the second half of the California Achievement tests while the college companies cleaned weapons and drilled. The college football team was their first football game tonight with Centerville Iowa. Centerville. I hope we win but Centerville is real tough.

September 27—Well, the college football team lost the season opener to Centerville, 57-0. Centerville must have a great team. The girls started arriving today for the dance this weekend. My roommate's girl got here this afternoon so I doubt if I will see much of them this weekend. Bull's and my dates won't be here until tomorrow. The high school football team lost to Slater tonight. It looks like another long football season again this year.

September 28—Another Saturday morning, my favorite day of the week, mainly because I don't have any classes and I can take part in a little recreational sleeping until BRC. Today at chapel, Maj. McConnel spoke on how people witness for their country. It was a great talk and when it was over, he received a standing ovation. Bull's and my dates arrived this afternoon from Columbia for the dance. It seemed good to see her again. Everybody had a good time at the dance and I was sorry to see the evening come to an end.

September 29—My date had to leave this morning for Columbia to attend a meeting. This my fabulous week end came to an abrupt end. I spent the afternoon riding my unicycle and going swimming. It was so hot today I was surprised that nobody fainted during parade from the heat. Tonight, I must do my accounting for tomorrow and then I'm going to hit the sack early.

September 30—Blue Monday morning again, the worst day of the week especially after a great week end. I didn't get too much sleep last night because Paul, Bob, Joe, Steve and I stayed up and talked about this past week end. I spent all afternoon up in the military department working on a sign for Col. Stagner. After supper, I went down town to the movie and saw The Green Beret, starring John Wayne. It was a real good show. Quite a few people, including some cadets came out of the show with a few tears in their eyes. After the show, I wrote a letter and went to bed.
October 1—This afternoon I paid Mrs. Hepler my money so I could go to the mixer at Cottey College, a girl's school in Nevada, Mo. It's a lot of fun down there. Bull, Bob and I are going this Saturday. After supper I made a calendar for my room. Now Paul wants one just like it.

October 2—Today for Assembly we had a professional glass blower. He made all sorts of useful items out of glass tubing. It really was an interesting Assembly for a change. For drill today most of the corps went on a cross country road march through a creek and down around Lions Lake. The rest of us who didn't go on the road march, set up our drill schedules and phases of training for the remainder of the school year.

October 3—Late BRC as usual. It sure felt good to sleep an extra hour. Today in "Bu shot" day. Everybody associated with Wentworth must receive a flu shot. The reaction has made several cadets and faculty a little sick. My shot didn't hurt this year like it did last year. Also this afternoon Dr. King, the school’s counseling and guidance advisor spoke to the teachers so afternoon classes did not meet. Steve and I took advantage of this by working on a machine gun nest for the individual training course. Tonight the college football team has a game with William Jewell College and we won for a change. The final score was WMA, 7; and William Jewell, 0. Everybody sure felt good after the game.

October 4—I had a test in geology today and I don't think I did too well. It was a lot of fun down there. Bull, Bob and I are going this Saturday. After supper I made a calendar for my room. Now Paul wants one just like it.

October 5—Lexington won their Homecoming last night. It was a real close game. They had some real cute girls for Homecoming candidates.

Tonight we went to Cottey. Most of us had a real good time. Bull had a real good time, about as good as he did last week end. We got back to Lexington around 4:00 a.m. Sunday morning.

October 6—It sure was hard to get up and go to church this morning after we got in at 4:00 a.m. I just about fell asleep in church. Parade was indoors today and the company commander and Brigade staff carried out the revocation of the "BRC as usual". Parade was indoors today and the company commander and Brigade staff carried out the revocation of the "BRC as usual".

October 7—Blue Monday socks it to us again. This is the worst day of the week. Classes went like they usually do, extremely refreshing. (Who am I kidding). Today is my day to lifeguard in the pool. It's a lot of fun down there. Bull, Bob and I are going this Saturday. After supper I made a calendar for my room. Now Paul wants one just like it.

October 8—I'm glad today finally got here because I'm running out of money. After classes I went to the military department to make final preparations for Wednesday's drill. After that I took a soupie and went down to the slopshop with Bull.

October 9—Today for Assembly we had a professional glass blower and to quote the wise old owl from The Trumpeter, "he really blew us away". It was by far the most interesting Assembly we’ve had all year. For drill this afternoon, Bravo Company went through the individual training course. They didn't do as good as Alpha Company did last week.

October 10—Late BRC as usual. It sure felt good to sleep an extra hour. After class today, I did a little recreational sleeping before supper and then after supper, I took a permit and generally did nothing.

October 11—Everybody had the Econ test today and most of us flunked it. Oh, well, I’ll try better next time. My accounting test wasn’t too bad but on the otherhand, it wasn’t easy either. My Bible Lit test was very difficult but I managed to get an A out of it. The six weeks ended today and almost everybody is sort of depressed with the grades they received. I know, because I'm one of them. Tonight, the college football team lost to Fairbury Junior College, Fairbury, Neb. Oh well, you can’t win "em all.

October 12—Today the hand went to Buckner, Mo. to march in their Fall Festival parade. They weren’t gone very long. We had a very interesting chapel today. A minister played a record called “The Snake” and then he discussed its meaning. It was one of the best we've had so far.

October 13—they were sure they were busy around here until after parade. First its church then it's lunch, then inspection, and finally parade. Parade sure went rotten today. The Sergeant Major on our staff really blew parade, he kept on marching when he should’ve stopped, but I guess, you can’t win "em all.

October 14—I just about slept through breakfast. I was so tired. Classes went unusually well today. In fact the whole day went real well for a change. I had to teach rec swimming today which was a bore since I was half asleep.

October 15—I'm not a private anymore. I got promoted today to 2nd Lt. It's money day again; time to collect and pay my debts. I'll probably break even today. Dancing classes started tonight with half today and the other half tomorrow night. Mrs. Maring is in charge of it this year instead of Mrs. Hepler. I think it's about time they got some younger blood in it. I am one of the cadet assistant instructors. We are really having a good time. They have four weeks of instruction without partners and then four weeks with partners (girls). On the eighth week, we will have a dancing class party. It should be fun.

October 16—Today for Assembly we had a Mr. Colen Jackson of the British Parliament. This has been his 17th visit to Wentworth to speak to us cadets. He was very interesting. He also had a question and answer session after chapel. For drill today we had our regular drill. Individual training today was a real "kill". I am in excess today for the first time this year and I hope it's the last time.

October 17—Late BRC as usual. Everybody walked around in a daze today. I guess that's because they are still tired from drill yesterday.

October 18—Today the high school team played Excelsior Springs team and lost. We held them to the half but from then on—well just say, we lost.

October 19—Today for chapel the minister from my church spoke to us. His talk started out about God but ended up about politics—He's Nixon a fan.

October 20—Today parade went exceptionally well. Our Sg't. Maj, goofed up but not near as bad as he did last week. After parade today, I went into Kansas City with my folks to see the K. C. Chiefs play and win. It was really an exciting game and it was also good to see my folks again.

October 21—Blue Monday as usual. Today nobody seems to want to do anything. I don't blame them because I'm tired too. As a matter of fact, I don't even want to write these memories today either.

October 22—Today is money day again. I gotta remember to collect my money from Bull today. I got out of lifesaving at rec swimming today because I had to work in the military department putting office cards on the shut of office certificates.

October 23—Today for Assembly we had a geologist. He gave us a real interesting lecture and demonstrations about rocks. It was even better than the glassblower we had a few weeks ago. For drill this afternoon, we practiced moving into the stands for Dads Day this week end.

October 24—Late BRC as usual, as Col. Wilkoff says. We had a test in geology and I don't think I did very good. Tonight our high school plays the Lexington high school football team.

October 25—Well, we lost the football game last night to Lexington high school 22-6. Oh well you can't win them all. Today starts the Dads Day week end. My Dad is on the Dads Club board and he had to be here early to attend the board meeting. It sure was good to see my parents and sister again. I spent most of the day with my mom and sister since my dad spent all day at the meeting. The afternoon was spent at "Carr’s" where fathers of cadets spoke to cadets interested in their fields. It proved to be a very interesting afternoon. Steve and I had our pictures taken at Reinheirts this afternoon after career day. Tonight, the Jr. College football team beat Kemper, our rival school. It was a great game, mainly because we won.

October 26—This morning, we had chapel for cadets and their dads and then after that, the dads club had a meeting in the chapel.

October 26—This afternoon we had the Dads Day drill where the cadets drill their dads and then the best drilled dad is selected by the Brigade commander. The best drilled dad turned out to be Mr. Joe Bauser of Cherokee Village, Ark. He was the commander of A Company several years ago. He then received parade. That night there was a banquet in the field house. It was very interesting. Entertainment was furnished by the Wyrick Sexton, a singing group from Kansas City. After the show, Steve and I talked to them and one of them is a junior at Turner high school in Kansas City, Kan., and the other is a sophomore at U.M.K.C. By the time everybody got back to the barracks they were ready for bed.

October 27—Got to sleep an hour later today because we set the clock back an hour. It sure felt good. I went to church this morning with my parents and then took a soupie and went out to dinner. My dad left at 1:30 to go to the Kansas City Chiefs game against San Diego Chargers. My Mom and sister stayed until after parade and then went home with another family from Salina. They left around 3:30. I was sad to see them leave but all good things must come to an end some time. This evening I went to a hayrack ride that our church sponsored. It was really a gin.
October 28—After such a hectic week end, I felt like I didn't get enough sleep when I got up this morning. Today at lunch, Col. Wikoff announced the first “stop night” which is tonight. A “stop night” is much looked forward to by the cadets. A “stop night” is just like a Sunday except for two things, 1—you are not responsible for the next day’s homework; and, 2—you have a late BRC the next day.

October 29—Today the two year boys were promoted. There were quite a few of them that were promoted. Some of them are letting their rank go to their heads. It sure was good to have another late BRC.

October 30—Today for Assembly they gave out the Wentworth Honor Society awards, also several other instructors got up and told about the awards their department gives out at the end of each school year. For drill today we had our regular training schedule. Tomorrow I’m on post again. Oh well, at least it’s on a Thursday instead of any other day. Today also was Paul’s birthday.

October 31—“Happy Halloween” to you all. Today, Col. Perry told us that it was “non-reg” for us to go “trick or treating” tonight. The college football team plays Highland Jr. College. The game ended in a 0-0 tie. We played a real good game.

November 1—Today I’m not going to write anything. Ha, Ha, November Fools. What, you mean there is no such thing as November Fools? Oh, boy, depressing. I’m so depressed that I can’t write anything today.

November 2—Today after chapel, Col. Perry had a meeting with all the officers. He asked if we had any grievances and if so, what were they. Tonight, the first Phi Theta Kappa movie was held in the chapel. It was a good one—35 Days at Peking. Steve went to K.C. today to see his girl give her crown as Miss Teenage Kansas City. He won’t be back until tomorrow.

November 3—Today, 17 men and one woman received parade, These 18 people were members of the North Central Evaluation of Secondary Schools Committee. They are here for a 24 day evaluation of the school.

November 4—Today, the group began their evaluation of the school. Several cadets had to stand watch or guard over the meeting rooms to keep all unauthorized personnel out of the meeting rooms.

November 5—The evaluation of the school was completed today. I hope the school got a good eating again this year. I’m pretty sure that we did. Well, today is election day. I sure hope Nixon wins.

November 6—Yes Nixon won. It sure was a close race but my candidate sure pulled through. Today for Assembly, we didn’t have Assembly. It was the best Assembly so far mainly because I got to sleep an extra hour.

November 7—“Late BRC as usual”. Went over to Reharts today to order my pictures. It is starting to turn cold. I can’t stand cold real weather. I had a test in Doc’s class today. Passed it with flying colors.

November 8—Today I called my folks to make final arrangements to go to Lawrence tomorrow to see K.U. and O.U. play football. It will be good to see them tomorrow.

November 9—Capt. and Mrs. Strait, Jack Fulton, Lyle Burr, Dan Waytek and I left Lexington at 10:00 a.m. Around 11:00, there was an earthquake that was felt in 19 States. We were driving down the highway when it happened. We had a good time. I found several of my friends from home. Everything was great except K.U. got beat, 26-23. That hurt’s their chances for the Orange Bowl.

November 10—During parade today, the three weeks disciplinary awards were given out. Alpha Company won the blue disciplinary ribbon. The yellow scholastic ribbon was won by Headquarters Company and the red military ribbon was won by Headquarters Company again. Congratulations to both companies.

November 11—Another Monday morning. Every week, I feel that I can’t seem to get another week but somehow I do. Today, high school swimming started. Prospects look pretty good. It looks like Capt. Slater is going to have another winning team this year. Good luck “Capt.”

November 12—I’m glad it’s money day again. I took a soupie and a permit tonight. All I did was watch T.V. I called Cathy at 7:00 to find out if she was coming down this week end for Homecoming and she still is.

November 13—Today for Assembly, the Oath of Office was administered to all newly promoted officers. There were quite a few. During drill a colonel from Fifth Army Headquarters came down to inspect the security of the Arms room. I guess he was impressed.

November 14—“Late BRC as usual”. Old Boys started arriving today for the long awaited week end. This is one of the best of the whole year. I hope a lot of my friends show up.

November 15—Today is the day of the big Homecoming game against Kemper and everybody is anxiously awaiting seeing their girls and having a good time at the dance. We had another test in geology today and surprising as it may seem, I think I did pretty good on it.

November 16—Yesterday, the Junior College team beat Kemper in Boonville and today, the high school team surprised us all and beat Kemper here for our Homecoming. That golly made the day. I was lucky enough to drive the Homecoming Queen’s attendants car through the downtown parade. It’s duty like that which I like.

November 17—This was another typical Sunday. The corps did pretty well in parade and I spent most of the afternoon walking around with Cathy. She had to leave around 6:00. This evening, my roommates and I decided to go to the show and relax a little. Got in fairly early and went to bed.

November 18—Early, early, early Monday morning. The color it gets, the earlier the morning seems. Had a test today in Econ. I feel pretty safe in saying that everybody flunked it, because, how can we study when our girls are down?

November 19—Tonight I spent both C.Q.’s studying for Capt. Grow. I usually wait until the last minute to do things like that but this time I’m going to get it done with plenty of time to spare.

November 20—All I ever do during drill is fire my M-60 machine gun at cadets going through the individual training course. Oh, by the way, I was using blanks instead of live ammunition. I went to dancing class tonight and really had a swinging time.

November 21—“Late BRC as usual”. We had a quiz in accounting today, and Paul and I did pretty good. After classes, I went over to the pool and went swimming.

November 22—Regular Friday—just had classes today. Nothing special happened. Took a soupie and a permit and went to bed early, around 5:00. I guess you can see I was tired.

November 23—I accidentally, on purpose, slept through breakfast today and all the way up to noon. Last night and this morning I made up for all the sleep I’ve lost in the past month. I got 19 hours of sleep with just waking up about 5 times. I probably won’t be able to sleep for 3 days.

November 24—“Happy Birthday” to me, “Happy Birthday” to Larry, “Happy Birthday” to me. Oh, groan—I’ve just turned 20. My folks called me today to wish me a “Happy Birthday.”

November 25—It didn’t feel like the usual Monday morning since I got much sleep last Saturday. Today we had a pop test in Geology. I think I got a C or a B on it. Of course, I am hoping for a B but we can’t all be perfect. Only 24 more days until Christmas furlough.

November 26—We got back our geology test today. I made a B—on it. Almost as good as I wanted. Oh, well, beggars can’t be choosy. College swimming was in full swing now for about one full week. Coach Coeller is at it again. I’m out for the team again this year. Our first meet is with Westminster College in Fulton, Mo, on December 18.

November 27—Today for drill, weapons were issued and the corps drilled with them for the first time. Most of the Old Boys remembered the Manual of Arms from last year and most of the “rats” didn’t know a thing. By the end of the drill almost everybody knew the Manual of Arms pretty good. 22 more days until Christmas furlough.

November 28—“Doc” Campbell’s Bible Lit. class didn’t meet this morning so that gave me all morning free with only one class this afternoon—accounting. Only 21 more days until Christmas furlough.

November 29—Today at swimming practice we swam 4200 yards. I am so tired I’m glad I don’t have any classes tomorrow so I can sleep tonight. Bob and I went to the show. Only 20 more days until Christmas furlough.

November 30—Another typical Saturday morning. Most of us slept ’til noon. Since we didn’t have chapel this afternoon we had an afternoon free except for the lucky guys in excess. Only 19 more days until Christmas furlough.

December 1—Today in church the women took complete control of everything. It was quite a pleasant change of pace but to tell the truth I like our minister better. Today was ribbon presentation parade. The winners of the six-weeks competition were awarded ribbons—Alpha Company was awarded the military ribbon and Headquarters Company won the red and the yellow ribbons. Only 15 more days until Christmas furlough.
December 2—Today in geology, we started winding up the chapter on Igneous Rocks so we can have a test later on this week. I think I am pretty well prepared for this test. I've got some real good notes. Only 17 more days until Christmas furlough.

December 3—Today in "Doc'e class, we ate popcorn that Jeff Wood brought to class. We ended up getting more of it on the floor than we did in our mouths! I took a nap and a permit and went over to the high school rec room and watched TV. Only 10 more days until Christmas furlough.

December 4—Today for Assembly, we had two men from the Independence Travel Agency with plans for the Educational Tour. They showed us a film about where we are going to have our tour. This year, we are going to the West Indies. It should prove to be a gim. Only 15 more days until Christmas furlough.

December 5—Late BRC as Usual. Today in geology we had a review for the test tomorrow. I feel "ready" for it. I hope I am. I didn't go to swimming practice tonight because I've got four tests tomorrow. I don't think I can stand much more of this. Only 14 more days until Christmas furlough.

December 6—Had our geology test today. I seem to study too much of one thing and not enough of another. It wasn't as hard as I thought it would be. English text and Econ tests were postponed until Monday. Capt. Grow said I could take my accounting test tomorrow. Our college B.B. team got beat tonight by Kansas City Junior College. It was a pretty tough game. Only 15 more days until Christmas furlough.

December 7—I took my accounting test today and needless to say I flunked it. I was expecting the colors. I've got to study my accounting much more than I do which isn't very much. Today in chapel the gideon society was here and gave a talk and presented each cadet in the corps with a small pocket bible. I got one just like when I was in the third grade. Only 12 more days until Christmas furlough.

December 8—I had to check in church today because somebody forgot to. I don't know who it was. I think it was Major Coulter but I'm not sure. Today in parade was the first time all the officers sabers. I guess we looked pretty good. I called my folks today and told her I needed some money for this week end. Parents really come in handy in emergencies like this. Tonight the high school wrestlers lost their first match to Marshall high school 35 to 17. Tough luck boys, try harder next time. Only 10 more days until Christmas furlough.

December 10—Everybody is really getting into the Christmas spirit. Christmas trees are springing up all over the place. We even have one in our room. Tonight, I watched T.V. for two hours and then came back and studied for an English test. Only eight more days until Christmas furlough.

December 11—Today we had a speaker from Hungary for Assembly. He is quite world renowned. He used to be quite high in the Hungarian Government. He also held the highest post of Prime Minister of Hungary. He is currently in exile in the United States, living with his wife and family in Virginia. Over-all, it was a very interesting speech. For drill this afternoon, I got stuck with cleaning the M-60 machine gun that I use for drill. Only 7 more days until Christmas furlough.

December 12—Late BRC as Usual. Today in Bible Lit. we turned in our notes that we have taken this past six weeks. Tonight, during CQ's Paul and I shot the bull about going pheasant hunting over furlough. Only 6 more days until furlough.

December 13—Friday, the 13th and I've got two tests today. I got my English text back today with a B+ on it. It was the 3rd highest in all her classes. Paul and I took our geology test this morning and as that old saying goes, we really "blew it". Paul really blew his American Government test. This afternoon, Paul and I took an economics test and since we are roommates, we used the "buddy system" just like everybody else did during the test. Gerri got here at 6:30 on the bus for the dance this week end. Only a few more days until Christmas furlough.

December 14—This morning, Col. Perry and Col. Starnger met with all the officers and gave us a real chew out over some of the things we did wrong and the things we haven't done as we should. Today in chapel, the children from the Higginsville State School for the mentally retarded sang for us. I sure feel sorry for those kids but they are making real progress. Tonight, Gerri and I went to the dance and had a real good time. It was real cold out after the dance. It felt good to get inside. We had to back up the bus to 12:15. Oh well, all good days must come to an end. Only 5 more days until X-mas furlough.

December 15—Gerri and I went to church this morning. After church we ate with Bob and his girl at the slopshop. Parade went really good today even though we had to wear overcoats. Gerri had to leave at 3:30 for Kansas City to catch a plane at 5:35 for Manhattan. Just like last night, all good things must come to an end. And we got out of bed and called Gerri to see if she made it back OK and she did. Only 4 more days until Xmas furlough.

December 16—No more Monday mornings until after furlough. We got our geology tests back today and guess what? I flunked it. I guess I've got too much Xmas fever. I can hardly wait for it to get here. Only 3 more days until Christmas furlough.

December 17—I found out I'm in study hall next week and after we come back after furlough. Tonight, in the QM, I got $9.00 instead of the usual $4.50. That's good because I need a little extra cash to go home with. Tonight, we went to the movies and we tipped Gary, our waiter, $4.50. He seemed pleased. He is a good waiter. Only two more days until Christmas furlough.

December 18—Today was the Christmas assembly with the band playing Christmas carols and the glee club singing them. The college swim team have a meet today in Fulton, Mo., with Westminster. We left at 11:00 and didn't get a chance to see the assembly. We lost the swim team have a meet today in Fulton, Mo., with Westminster. We left at 11:00 and didn't get a chance to see the assembly. We lost the 49-48, but they won the relay and won the meet. Oh well, we will beat them next time. Only one more full day until X-mas furlough.

December 19—No late BRC today. I still can't figure out why. Several day students were an hour late to classes today because they didn't know that there wasn't any late BRC. I hope they don't get into too much trouble. Tonight, we had our full athletic awards banquet where the coaches of all the fall sports presented the letters and certificates to those men who earned them. Tonight, several guys tried to throw Steve and I in the showers but we out-smarted them and locked the door. Just think tomorrow we go home for 17 wonderful days. I can hardly wait.

December 20—Only had two classes this morning, and left, after 2nd hour, for Christmas furlough. Paul came back from Kansas City to pick me up. We are going to a party at the Town House Hotel in Kansas City, tonight. It should prove to be very interesting.

December 20—January 5—Christmas Furlough.

January 5—All good things must come to an end but this is one that I wish wouldn't have ended. Tonight, Paul, Bob, Steve, Joe and I just shot the bull about Christmas furlough. Just think only 62 more days until Spring furlough. I had in operation on my left leg the day after Christmas and it's still pretty sore.

January 6—Today was really a blue Monday if I ever saw one. Everybody was really depressed about coming back. I don't think any of the guys wanted to leave their girls. Just think guys, your girls off to that big cold college where there are other girls that she can date. Isn't that a comforting thought. I'd better keep my ideas to myself.

January 8—Today for Assembly we had a gymnast named Terry Cant. Grow said I could take my accounting test tomorrow. Our college B.B. team got beat tonight by Kansas City Junior College. It was a pretty tough game. Only 17 more days until Christmas furlough.

January 9—Late BRC as Usual. Today, Paul got assigned to F Company as company commander. He finally get what he wanted. I'm sure he would rather be a company commander than a staff officer. Congratulations Paul.
January 10—Paul moved out today and Bill Fassoux moved in. Bob will be leaving in about a week and we will be getting another roommate. I don't know who it will be yet. I went to the doctor this afternoon to get my stitches taken out from my recent operation. It didn't hurt at all. It took quite a while to get all of Bill's stuff moved into the room.

January 11—Military Ball is a two weeks away and I still haven't got a date. I better call Gerry tonight to see if she is going skiing or not at that week end. I hope she isn't. Cleaned the room tonight and listened to records.

January 12—At church today our minister started using cadets and other youth of the church in his worship service. They read the scripture. Today, while on duty, I watched my sixth parade since I started going to Wentworth. I get bored at all the rest and I never did get a chance to see one. They are really impressive. The cannon fired a little too early this morning which surprised everybody. Tonight, Fossile and I took a saucie and made dinner in our room.

January 13—Got my hair cut third hour today and then I watched the band on T.V. They went to the Governor's inaugural in Jefferson City. They looked real sharp. Starting at 4:00 p.m. this afternoon, I started studying for my English composition finals. It's 2:00 a.m. now and I believe I'm ready for it, not really, but I've got to make myself believe it. I think I'll quit now and sack out.

January 14—This morning started the semester final exams. I took my English final during the first session and after that I was free for the rest of the day. I think I did pretty good. I slept the rest of the morning and afternoon. I watched T.V. and went to bed early.

January 15—No finals today and I got to sleep all morning. We had mock stresses of going to a real final today. Greg Artis and I were in a bunker with a machine gun. I stayed up and studied for my accounting test. I hope I can do good in it.

January 16—No late BRC today because of semester finals. I had my accounting finals in the first session and had the rest of the day free.

January 17—I took my geology finals during the first session today. Bob left school today around noon. He graduated this semester. He is going to go to Baker University in Baldwin, Kans. I hope he does a good job but I doubt if he will. My Econ was really a bear. I don't know how I did on it.

January 18—I took my last final today. It was Bible Lit. and it was really hard. Can you note a bit of sarcasm; I hope you can because it's there. The test was so easy. It was more like a community project. If we don't get an A on it, I will really be surprised.

January 19—Almost missed church today because I slept until 10:15. I made it in time though. It was a real good service, mainly because the service was real short. I got out of parade today because I was on duties. I am on for two more weeks. It's really great. I don't have to go outside for any formations. This afternoon, I bagged it and tonight Larry and I went to the show to see "The Detective" with Frank Sinatra; it was really a cool show.

January 20—Second semester started today. I've got some pretty good classes this semester. I've got Capt, Sargent for two classes. I don't know who will crack first, him or me. Tonight I did my accounting and went to bed early.

January 21—What a day. I had six straight classes and I'm really bushed. I took a soupike and a permit and watched TV until taps. Larry and I stayed up until 1:30 a.m. and just 'shot the ball.' I don't have any classes tomorrow so I can sleep up until assembly.

January 22—What a morning. I slept until 10:40; it was great. As assembly, we listened to Colonel Wolf talk to us how to dance with our girls at Military Ball. No cheek-to-cheek, no double-arm and most of all, no kissing on the dance floor. That's really ridiculous, but, on the other hand, some of the guys go to extremes when dancing with their girls, so I guess the talk was not all in vain. For drill, we practiced parade for Military Ball week end. It went pretty good. Today, after drill, was the first day I could go back to swimming after my operation. It was very good and a joy to listen to. The swimming team didn't have to go to drill because we had a swim meet with William Jewell. We gave them a hard meet but, in the end, they finally beat us. The score was closer this time than it was last time. We have another meet Friday with Westminster and it should be a real close meet.

January 23—"Late BRC as Usual." It sure felt good to sleep an extra hour today. I just started getting more sleep or I'll fall apart. The high school swimming meet with Columbia Hickman High School was postponed because of the Hong Kong flu. We've got a meet with Kemper tomorrow. I just got off duty yesterday and haven't swam since Christmas furlough. I hope I don't do too bad tomorrow.
February 6—“Late BRC as usual”. That extra hour sure felt good this morning. I only had two classes today so I had all afternoon free. After lunch, I went over to the pool so I could get an early start on our workout. We didn’t work too hard because we have a meet tomorrow. I went to bed early tonight so I could get a lot of rest for the meet tomorrow.

February 7—I had five tests today. I didn’t think that I would ever get done. I had writer’s cramp after my last test. Immediately after 6th hour, I ran over to the pool to warm up for the meet. Well, we got beat again. It seems like a regular thing now. I’m getting kind of tired of it. We got beat a little worse than we did last time.

February 8—Today the band and the Honor Guard went in to Kansas City to promote the Wentworth Show which is to be held on February 21. They performed at five shopping centers. I heard that quite a few people turned out to watch them perform. Tonight, Nor and I went to the Phi Theta Kappa movie in the chapel. The title of the movie was “The Best of Enemies”, starring David Niven. It was pretty funny.

February 9—It turned cold out today so it was kind of a rotten Sunday. It was too cold to do anything outside. We just stayed indoors all day and just did nothing. Bob surprised us all and came down today from Baker University. He hasn’t changed yet except that his hair has grown.

February 10—Today wasn’t a bad day. It was real nice out. I rode my motorcycle outside for about an hour and then I went to swimming practice. I just about got my head busted open by a diver who bent off the board crooked. That kind of shook me up so I left. I took a soupie tonight but since I didn’t have any money I ate in the mess hall anyway. Only 24 more days until spring furlough.

February 11—Today was a day at Kemper for most of the athletes at Wentworth. The swimming, wrestling, rifle and both basketball teams went to Kemper today for various athletic events. We didn’t have to go to lunch because our coaches didn’t want us to eat any solid foods. We arrived at Kemper around 3:00 p.m. The swimming team won 57-48, the wrestling team won, the rifle team lost, the high school basketball team won, 40-28 and the college basketball team lost, 66-59. We got back around midnight so we get to sleep through breakfast and since I don’t have any classes tomorrow, I think I’ll sleep till noon.

February 12—Today, for assembly we had a minister from the Central Christian Church in Kansas City, Kas. He delivered a spectacular speech. I believe it’s been one of the best assemblies all year. I stayed awake this time because he was real interesting. During drill, most of the corps did manual of arms and care and cleaning of weapons. The small minority of the corps which will perform for the Wentworth Show practiced their acts for the length of time it takes, to see if they have to cut any of it. The band left for three days at the Mardi Gras. I was going to go with them but since I didn’t have any money I ate in the mess hall anyway. Only 24 more days until spring furlough.

February 13—“Late BRC as usual”. Today was a day of extra studying for tests tomorrow. I have three regular tests and one make up test. I will never get behind again. It’s just too hard to make up what you’ve missed. This evening, I studied up in the officer’s club where it’s quiet. I can’t study in my room because there’s just too much going on.

February 14—Happy Valentine’s Day—I got two valentines in the mail today, one from my folks and one from my sister. Most of the guys got quite a few cards and letters today from their girls. Today was really a morale builder. Mail is always a morale builder. Just think, only 22 days until spring furlough.

February 15—Today, a group of us were supposed to go to Cottey College for a mixer. Cottey is a private girls college in Nevada, Mo. Since it snowed real hard this morning, they postponed it until a later date. I hope they have it the weekend before we go home for spring furlough which is just 21 days away. I can hardly wait to get home.

February 16—For the first time in four years, since I started school here we didn’t have the usual Sunday parade. It was really a pleasant change. Instead of parade, we had a sneak preview of the Wentworth Show which was in the field house. The band and drill teams performed. The Honor Guard did their silent drill, the Indian dancers danced three dances and the pom-pom stick team put on their demonstration. We had swim team practice because we have a meet tomorrow with Park College in Parkville, Mo. I spent the whole day experimenting with my term paper for English. Only 20 days until spring furlough.

February 17—The swim team didn’t have to go to lunch today because we had to leave for Parkville at 12:30. On the way there we got lost. I was in Mrs. Gibson’s car. The road we usually take was closed so we had to take a big detour. The meet went great. Especially with Captain Rochlisberger. We won. We made it back by supper but we didn’t have to if we didn’t want to. Tom, Roland, Larry, Scotty and I went to the Pizza Village but found out it was closed so we went to the Good Slop Shop, more formally known as Dave’s Cafe. Guess what!—only 19 more days until spring furlough.

February 18—Today, immediately after 6th hour, I had to go over to the pool and time a swim meet. The high school team had a meet with St. Joe Central and Van Horn of Independence. It was a pretty good meet with a lot of fast times. St. Joe won, Van Horn got second and Wentworth got third and last. The guys aren’t doing as well this year as they have in the past. I got a post card from Gregg down at the Mardi Gras.

February 19—For assembly today, the Club Sing. They are much better than they were last year. Another trio sang and they are really great. For drill today, we had several practice parades for the Wentworth Show which is this Friday at the Municipal Auditorium in Kansas City. After drill, I had to go to swimming practice to get in shape for our next meet. As of today, there are only 13 more days until spring furlough and I can hardly wait for that magic day to arrive.

February 20—“Late BRC as usual”. I only had one class today and that was “Doc” Campbell’s “Religious Values” class. “Doc” gave us a pop test of which everybody passed with flying colors. At 4:00, we had a briefing for the Wentworth Show. It lasted for over an hour and all we did was listen to Col. Stagner tell us things that would happen which we already knew. Oh, well, such is life. Tonight, I spent most of my time studying for my two tests tomorrow.

February 21—Today was a day of hustle and bustle in final preparations for the Wentworth Show. The advance party left at 12:45 immediately after lunch. After 6th hour, everybody had to hurry and get dressed in blues and get ready for early supper. The Corps started loading the buses for Kansas City at 4:45 and we were on our way by 5:00. I met my folks and some friends at the Auditorium when I got there. Since my dad is on the Dad’s Club board, he got us reserved box seats. The evening went by without a hitch and it ended much too soon. We arrived back in Lexington around 1:00 a.m., and I don’t think it took anybody very long to get to sleep; at least, it didn’t take me very long because I was bushed.

February 22—I think most of the Corps slept all morning. I know I did and I still felt tired when I woke up at 11:30. After lunch I showed some prospects around from my hometown (Salina, Kansas) and then after they left, Nor and I cleaned the rooms both front and back. Only 14 more days until spring furlough.

February 23—Today, I started my diet. I woke up at 7:30 and took one of Fayssoux’s diet pills and went back to bed. I got up at 9:00 and I wasn’t hungry. I didn’t eat all day and I wasn’t hungry. It’s great. I have to start taking them every other day. Tonight, I went to the Phi Theta Kappa movie in the chapel. The title of the movie was “The Best of Enemies”, starring David Niven. It was pretty funny.

February 24—I’m still not hungry from the diet pill I took yesterday. I hope it works. I need to lose weight. Tonight was “A” Company’s military banquet. We had steak and was it lousy—no, it was good. After the banquet we went to the chapel and saw two films, one on the Army parachute team and the other on the “cameo” corps. During Q’&A, I helped Major Conner teach a Senior Life-saving Class.

February 25—Today in Bel. Val., I got caught up on my Bel. Val. notes. I found out at supper that I am on Post tomorrow. Oh well, I might as well get it over with. Tonight, I will try and finish my term paper mostly because it is due tomorrow. Just think, only 11 more days until spring furlough.

February 26—Since I am on Post today, I don’t have to go to any of my classes. I only had two. For assembly, Colonel WilCoff gave a lecture on the advantages of going to a military academy. For drill we had a practice parade by battalions. While one battalion was in the field house practicing the parade, the other was in the barracks cleaning weapons. During Q’&A, I had to sit down at Post until taps. Ten more days until spring furlough.

February 27—“Late BRC as usual”. I only had two classes today and they were in the morning. I had all afternoon free. I spent it studying for my tests tomorrow. At swim team practice tonight, we had our last hard practice. Tomorrow’s practice won’t be too hard because of our meet Saturday. Only 9 more days until spring furlough.
February 28—Today, after classes, I went over to the pool to practice for the meet tomorrow. We didn't practice very long or very hard. I stayed about 30 minutes. During C.Q.'s I helped Major Coulter teach a Senior Lifesaving class. After that class, I went to bed early so I could rest up for the meet.

March 1—The swimming team got to sleep through breakfast this morning and it sure felt great. I got a real surprise when I went over to the pool. Coach Coulter forgot to put me on the entry sheet for the meet today and it was too late to be placed on the sheet because all entries had to be submitted by Friday noon. There were five private colleges at this swimming meet. Wentworth, William Jewell, Westminster, Park, and Drury. William Jewell won the meet with 71 points. We took second with 69 points, Drury took third, and Westminster and Park tied for fourth. It was a real good meet, lasting the entire day.

March 2—After parade today, my roommate and I just hung around the room and 'shot the bull' until supper. After supper, I tuned in my laundry and went to bed. I was really tired.

March 3—I sure feel rested with the 13 hours of sleep I got last night. I probably won't sleep at all tonight. Since this is the last week before furlough, everybody is getting excited about going home. Tonight in church, our minister delivered a very good sermon, it's about the first time I stayed awake throughout the service. After parade today, Larry, Cog, Bill, "Jet-Set" George and I went into Kansas City to see "Bullet", starring Steve McQueen. It was really a good movie. We got back to Lexington around 9:00. I got my laundry ready to turn in and went to bed.

March 4—Doc Campbell went to some kind of meeting today so Rel. Values and Bible Lit. didn't meet. It gave me an extra hour to take it easy. None of the teachers give any homework the last week because they know that nobody would do it anyway. Tonight, during C.Q.'s, I watched TV over in the High School Rec. Room.

March 5—Today had to be the best day of the year for sleeping. I got to sleep through breakfast and since I don't have any Wednesday classes and since there was no assembly today, I got to sleep until noon. It sure felt great. During drill, "Fossil" and I went down town. I had to pick up our coat's present and "Foss" had to cash a check so we could buy some food. After drill, Major Coulter and I finished the Sr. Lifesaving course. It only lasted an hour so I got back to the barracks early, just in time to get a shower and turn in and get good sleep. We had our athletic banquet tonight where the winter sports awards and letters are presented. I got my letter in swimming. We gave coach his rifle rack and he seemed pleased with it. I hope he can use it. I just think tomorrow at noon, we go home for furlough.

March 7—I think that everybody was up early this morning getting ready to leave. You could leave after your last class. Classes were cut at 12:45 so all the cadets would all be out of the room. My last class was over at noon. My dad came down for the Dads Club board meeting. I had to get on the Dos Club board meeting. I had to get a sixth hour class because I couldn't leave until after the board meeting anyway. We left here around 1:00 p.m. and got to Salina at 4:13. I took Ernie down to the bus station and then we went back home.

March 16—All good things must come to an end of course, but I wish this good thing could have lasted longer. Most of the corps arrived back on campus by 6:00 p.m., but there were a few who were late. As far as I know, nobody had a serious accident or illness. We were very lucky this year. Last year, over Spring Break, I lost two of my best friends in a car wreck. The only person that had a severe car wreck this furlough was Bert Dickey and Bert's too stubborn to get hurt. I spent most of the evening with my roommates talking about furlough.

March 17—After getting up around noon at home over furlough, it was hard to get up at 6:20 in the morning. Classes sure were lousy. Nobody was ready to buckle down to study. After classes I went out and played tennis for about an hour. The weather is really turning nice. I think spring is about to be springing.

March 18—I'm sure glad that today is "pardon" day. I am sure that everybody spent all their money over furlough. I know I did. Today, I started reading William Shakespeare's "Romeo and Juliet". I just love the motion picture over furlough and it sure was good. It was sad but it was good. I hope the play is as good.

March 19—No classes today but I had to go to study hall. For assembly the Honor Society awards were presented to those cadets who earned them. There were 95 guns who got the H.S. award for the last week. One of the H.S. cadets is going to study hall. The corps drew their equipment for bivouac. That's quite a ways off. I guess that they want us to know how to put up the tents.

March 20—"Late BRC as usual". It sure felt good to sleep late. It's not quite as late as I'd like it to be. I only had two classes today. Therefore, today was really an easy day. This afternoon, I wrote a letter to the major airline companies about what field of study I should go into in order to work for an airline.

March 21—I had four tests today of which I did very good. I got 3 A's and 1 B on them. The heavy studying paid off. Our college track team had a meet today with K.C.J.C., and we walked all over them. The final score was WM 88, and K.C.J.C. 21. During C.Q.'s, I helped guard the faculty and their families in the swimming pool. It was a lot of fun.

March 22—After chapel today, we had our Sr. Lifesaving class. I sure will be glad when this course is over. Then, we've got a WSI course which will last just as long. It won't be as boring. During C.Q.'s, Bill and I cleaned the room, mainly because it hadn't been cleaned in over a month.

March 23—Today in church, our minister delivered a very good sermon, it's about the first time I stayed awake throughout the service. After parade today, Larry, Cog, Bill, "Jet-Set" George and I went into Kansas City to see "Bullet", starring Steve McQueen. It was really a good movie. We got back to Lexington around 9:00. I got my laundry ready to turn in and went to bed.

March 24—Monday mornings are always lively although this morning seemed much worse than any of the past Mondays. Today I got back two of my tests that I took Friday. I was quite surprised with the grades because they were both As. If I can only keep it up for the remainder of the semester, I really need the grades.

March 25—Tuesday is my longest day. I have six classes in a row. I'm really dead by the time sixth hour is over. During drill, First Battalion practiced inspection in ranks for the upcoming federal inspection. It seemed to me quite worthless, but I guess it was necessary. During C.Q.'s major Coulter and I finished the Sr. Lifesaving course. All but two cadets passed. After lifesaving, I watched Hawaii Five-O on TV in the officers' club.

March 27—"Late BRC as usual". It sure felt good to sleep that extra hour. I wish we had that every day. After lunch, I went out and played tennis for about an hour. I started studying for my test about 3:30 and tried to study up to taps but I didn't make it. I went to bed at about 9:00.

March 28—I had four tests today and surprisingly enough I didn't do too bad on any of them. I was really surprised. I guess that studying really does pay off. During C.Q.'s I watched a track meet during C.Q.'s over the field house. We didn't do too good—we lost. Oh, well, you can't win them all.

March 29—I forgot to go to my Sunday class this morning and I didn't get caught. I couldn't believe it; I don't plan on making a practice of it though. Tonight, was the annual W-Club dinner. I had a date with Peggy and we really had a great time. We got to wear civilian clothes for once. It was really a lot of fun. I wish we could do it more often. The "Lemon Scream" supplied the music. They are better than I thought they would be.

March 30—After parade, several officers and myself spent the afternoon up in the officers' club watching TV. After supper, I went to sick call to see the doctor about my tooth. He told me I could go home and have it done. I had to get it replaced. During lunch I bit down real hard and that's when it broke. I went to the dentist and he told me it was abcessed and it had to come out. He told me I could go home and have it done. He pulled the broken piece out and sent me on my way.

April 1—Today I'm going to write a whole page—APRIL FOOL'S!

April 2—Today's assembly was really interesting. We had a Swiss Alpine singer. It was a very interesting assembly. He used several cadets and our two young secretaries for an act. For drill, First Battalion stood on the quadrangle for an act. For drill, they gave a dress inspection. They were practicing for the upcoming federal inspection.
April 3—"Late BRC as Usual". Today was a very restful day. I only had two classes all day. After my classes I started getting ready to go home tomorrow. I can hardly wait. It seems a month since I was home, and it almost has been. During C.Q.'s I had to study for my two tests tomorrow.

April 4—I finished my list; which was over at 11:15, Joe and I checked out and left for Kansas City. I got to the airport at 12:30 and my plane left at 1:10. My plane felt like a roller coaster. We went through a storm. I finally made it home around 2:45. Instead of waking up all night, I went as soon as I got home. By 5:30 he had finished the dental surgery. After picking up my sister at school, we went out to eat. I had a late date and got in around 3:00 a.m.

April 5—My sister got me up at 10:00 a.m., and then we had breakfast. During the afternoon, Tom a friend of mine from K. U., and I played pool and after supper, got down and went out to my house. After another late night, I made it to bed.

April 6—Today being Easter, I went to church with my sister and after church, we went out to the Country Club for dinner. It sure felt good not having to go to parade at 2:00. At 3:00, my folks called from New York. They said they were having a good time. I had to go to the airport at 4:30 and caught my plane for Kansas City at 5:10. It really was a good flight much more pleasant than my flight home. When I got to Kansas City, I took a cab to Joe's house which cost me five bucks which was outrageous. We got back to school around 9:30 and went to bed.

April 7—6:30 seemed so early to get up since I slept till noon when I was home this week end. It takes quite a bit of work to get back in the swing of things even after being home for three days. After classes, I went down to the dentist so he could see what my dentist did.

April 8—Another inconoclastic day at Wentworth according to my roommate, Nort. I could say that things are running per for the course, but as usual, the Administration has dreamt up something to, as Col. Wikoff says "break the monotony". This time the grandiose scheme is, may I have the winning card please. (drum roll), G.I. or I.G., or Annual Federal Government Inspection, or anyone of another dozen decent, and obsene terms. To induce an aura of suspense I will wait until the next installment to further daborate on the virtues of G.I.

April 9—Today is my favorite day of the week because I don't have any classes all day. After breakfast I went back to bed and slept until 10:30, just in time to get ready to go to assembly. For assembly today, we had a humorist who writes for the major newspaper and magazines throughout the United States. For drill we prepared for our drill during the upcoming federal inspection. After supper, I watched T.V. until 10:00 and then went back to the barracks and went to bed.

April 10—"Late BRC as Usual". After lunch, Nort and I went downtown and generally did nothing. I started studying for my two tests late in the afternoon and finished after supper. During C.Q.'s I called my folks to see how their trip back East was. They didn't get home until around 7:00 Wednesday morning and they were still tired. After supper, I watched T.V., until 7:30 when I had to lifeguard for the hostel system. After classes, I did my homework so I wouldn't have anything to do after supper except type Perry's book report. I finished the book report at 10:45 and went right to bed.

April 11—Today was a day of tests and review for six weeks tests which are Friday. Captain Symond surprised his classes and cancelled his tests because he was going to Wisconsin right before lunch. I have him for two classes and his last class, International Relations, did not meet. Since I had all afternoon free I went up to Bings to get the materials I will need to clean up my room for G.I. which is Monday and Tuesday. During C.Q.'s Bill, Joe and I watched T.V. up in the officers' club until taps.

April 12—Everybody started moving everything out into the hulls right after breakfast. Preparing for G.I. is a very hard task. After chapel, the moving began. Everybody was confined to their barracks so they could clean their rooms.

April 13—I met Peggy at 10:30 for church. The sermon wasn't too interesting but interesting enough to keep me awake. If I had fallen asleep, Peggy would have jabbed me in the side to awaken me, but anyway, I didn't. Our room passed the preliminary G.I. inspection. After parade, we were free to do as we wanted to. I didn't take it but I did take my 6th hour test even though it too was optional. I made a good grade on it I had to—keep my "B" average. After my tests, I studied for my European history exam up until supper. After supper I watched T.V. until 7:30 when I had to wait for the faculty at the pool.

April 14—My favorite day again. I slept up until 11:45. Assembly was postponed until tomorrow third hour. It sure felt good to get an extra four hours of sleep. I had a drill held in the morning, and I got a good job at G.I. This afternoon, I did practically nothing except go downtown for an hour. After supper, I went out to Peggy's house for dinner. We listened to records and Peggy played the Piano. We had a pretty good time.

April 17—"Late BRC as Usual". Today for Assembly we had a Scoutman who played the bagpipes and showed a film of his trip with two other friends on a raft down the Amazon River. It was really an interesting assembly for a change. After lunch, I started studying for my 6-weeks tests which start tomorrow. I have five tests tomorrow and one Saturday. I studied up all day and then went to bed.

April 18—I had tests first, second and third hour and was supposed to have one during fourth hour but he made the test optional. I didn't take it but I did take my 6th hour test even though it too was optional. I made a good grade on it I had to—keep my "B" average. After my tests, I studied for my European history exam up until supper. After supper I watched T.V. until 7:30 when I had to wait for the faculty at the pool.

April 19—My European history test was harder than I thought it would be. I hope I got a "C" on it so I can keep a "C". After my test, I tried to sleep but the maintenance department was installing an air-conditioner and they made too much noise. Doc showed us slides from the Educational Tour cruise. It was very interesting. After chapel, I tried to clean up the room but ended up doing nothing. Nort and I took a soupie and went to the Pizza Village. After supper, we walked out to the Dog and Sod and had a pretty good time al night. We got a ride back to the campus around 9:30. About 10:00 we went to bed.

April 20—After church, I helped Captain White with Camp Day. I went around and unlocked all the doors to rooms which Captain White wanted to show to the people. I didn't have to go to parade today because I had to get the pool ready for the campers so they could swim. There were several campers there until 4:00.

April 21—This morning I didn't feel too tired because I had a very restful week end. After classes, I did my homework so I wouldn't have anything to do after supper except type Perry's book report. I finished the book report at 10:45 and went right to bed.

April 22—Today is my busy day for classes. I have six straight classes. After classes I went downtown to get my watch fixed and made my folks hotel reservations for Mother's Day and Commencement. During C.Q.'s I watched T.V. my favorite night for television.

April 23—No classes again this morning so I slept until 10:30. It's about the only day I really get any sleep. For assembly, we had two car racing films. The first one was about the "Indy" 300 and the second one was about the Darlington 500. We didn't get to see all of the second one. For drill the corps practiced putting up the pup tents for bivouac. I was lucky, I didn't have to, I helped with the P.E. tests.

April 24—"Late BRC as Usual" After breakfast, I shined my shoes and brushed for room inspection. After lunch, I picked up our laundry and did our accounting. He won't be here tomorrow to hand it in but I will. During C.Q.'s we got ready to leave on our furloughs this week end. We didn't make it to bed until about midnight.

April 25—"Spotty" and "Foss" left for Tulsa during breakfast. They are going to visit the campus of the University of Tulsa in Tulsa, Okla. They have to be back tomorrow night. We didn't make it to bed until 6:00. Wednesday morning and they were still tired. As soon as they got home around 11:00.

April 26—I got up early so I could drive over to Manhattan and be there by 10:00 a.m. I got there right on time. I met the men of the Sigma Nu house and had lunch with them. During the afternoon we went around the house, and while I was there I test the guys who were invited to spend the week end there, asked questions about the fraternity system. After supper we went to a party and got in pretty late.

April 27—We slept pretty late this morning and got up in time to go to church. After church we had supper at the house. It lasted about an hour. Around 2:00, I left for Manhattan for Salina. As soon as I got home, my folks, sister and I drove to Kansas City and then after supper, we drove over to Lexington. I got back to Lexington around
May 8—"Late BRC as Usual". Most of today I tried to study for my tests tomorrow but I couldn't get too motivated. After lunch, Joe and I went down town to get something for Mother's Day. After looking for an hour or so what we wanted... (I wanted to look at clothes so we went to Siers and looked at some of the new style suits and sportcoats. I took a soupie and went to the Slop House for supper. After supper, I had full intent of studying for my tests but Dan Winters talked me into going to the show so I did. It was a real good movie. We got back around 10:00 and I felt too tired to study. Oh, well, I hope the tests aren't too hard.

May 9—1 kind of detest Friday because I always have at least two tests. My government test was fairly hard but the international relations test was easy. After classes, I cleaned my room. It's a lot easier since Foss went down to the country yesterday. After the test, I cleaned it since my folks and sister are coming down tomorrow for Mother's Day weekend. After I cleaned the room, Nort and I went down and played tennis. I had a late supper or, shall I say, breakfast because I had bacon and eggs around 8:00. Made my way to the officers' club to watch a little T.V. but I had seen what was on T.V. at a previous time, so I went back to the barracks and went to bed.

May 10—After breakfast, I shaved, showered and shined my shoes. I decided I had better do it now before my folks come down. After class, I slept up until noon. After chapel, I took excess duty for Foss, who is on furlough. My folks got here around 7:00. It sure is good to see them again. Kim is growing up to be quite a sister.

May 11—After church we went out to Kopp's to eat a combination of breakfast and lunch. There were quite a few parents here for the wilderness week end, all the restaurants are full. We didn't finish until 1:30 and had to hurry back to get here in time for parade. After parade, we went up to the hotel and just sat around and talked. They had to leave around 6:00 to get back to Salina by 10:00. I sure hated to see them go but three weeks from today, I will be either home or on my way to New York.

May 12—When I got up I thought there were only two more Monday mornings here at Wentworth. Everybody seems to be very impatient about the ending of school. I can hardly wait to get out. I really miss all the guys I met here. After classes, I slept up until 5:30 when Maj. Coulter picked us up and took us (the college swimming team) out to his house for a banquet. It was really good food. I put on all the weight I lost. We watched T.V. until 10:00. Only 30 more days until Commencement.

May 13—This morning, I woke up with a splitting headache so after breakfast, I took a pain pill. During C.Q.'s, I studied up until about 3:30. The only reason I stopped was because I had to call Peggy and 'I Spy' came on T.V. at 4:00. During C.Q.'s, I studied for two tests that I have tomorrow. Only 31 more days until graduation and no more Wentworth.

May 14—My favorite day again, only today it was even better since we didn't have an assembly. So I slept until 11:30. I think I've been getting too much sleep lately. For drill today, we practiced for all of the commencement activities including the bug ceremony. I can hardly wait to see the college band play for the first time. I'm sure it will be sensational. After lunch, I had a delicious steak dinner and a film at the Kansas City Country Club. We had a steak dinner and a film on the Kansas City Country Club. From there we went to the movies—it was a pretty good movie—a "Man and a Woman". After the show, we walked back to the hotel where we sat and talked until about 10:15. Her mum took me back over to school where I checked in and went to bed.

May 15—"Late BRC as Usual". I called Sears to see if my watch made it and it finally did. I was really surprised. I will go down after 4th hour today to pick it up. I must wait for Foss to get out of class because he's going to loan me the money to get my watch. He doesn't know it yet though. During C.Q.'s, I watched a little T.V., and then I decided to write my theme for English. I finally finished around 11:00 p.m. Then I staggered off to bed.

May 16—Today is usually my big test day but Capt. Symond took a vote to see if we wanted a test but of course, we didn't want one, so it was really an easy day. After 6th hour, we had a briefing about bivouac or the annual Corps cookout, as it is informally known. During C.Q.'s, Cooper and I went to the local Bijou theater and saw the "Hellfighters", starring John Wayne. It was a typical John Wayne type flick.

May 17—Most of the morning and early afternoon was spent in preparing for the big bivouac. We didn't have a chapel service today. Around 3:00, we started on the big road march to the country club. Well, just 20 minutes after bivouac started, I injured my leg. This is the third time I've had my knee worked on. Oh well, they say the third time is a charm. We had a round-about way to make it. We didn't get to the country club until around 5:15. We ate and then set up the tents. At 8:30, Doc had his chapel service. After chapel, everybody was raising a little heck. I think I made it to sleep around 2:00 a.m.
May 18—We broke camp at 5:00 a.m., and get back to school around 6:00 a.m. Breakfast was mandatory but lunch was optional. I slept until about 1:30, just in time for parade. You could tell that everybody was tired at the way they performed at parade.

May 19—Only one more Monday morning here at Wentworth. Two weeks from today, I will either be in New York or home working. I can hardly wait. Tonight the winter and spring lettermen of both Wentworth and Lexington High School had a banquet sponsored by the Lexington Quarterback Club. The guest speaker was "Hay" Whitney, head wrestling coach of the university of Missouri at Columbia. The food was good and the entertainment was good. Peggy gave me a "crip-erad cadet" coloring book. It was hilarious.

May 20—Today was my last day of having six straight classes. After classes I had to go over to the Academy Health Center to have the doctor look at my leg. All he did was clean it up and re-wrap it. Then started typing the Am. Govt. final exam answers. I quit typing around midnight and I hardly even denied the work I had to do.

May 21—Instead of sleeping all morning, I typed the answers some more. I got quite a bit done by 10:30. I could have done a lot more except we had assembly to go to. Colonel Wilhoff took us about the Commencement week end. For drill today, we practiced the inclement weather schedule for commencement. It was the only thing we could do since it was raining out. After drill I went back to typing and finally finished around 5:30. Went to the S.S., for breakfast. During C.Q.'s, we watched a movie with Frank Sinatra and Steve McQueen featured.

May 22—"Late BRC as Usual". Today we took our final in Doc's class. It was really the epitome of tests. Just joking of course. I guess one could call it a community project. After lunch I spent most of the afternoon studying for two of my finals which are tomorrow. I studied until about 10:30 when I couldn't study anymore. I played solitaire and "shot the bull" with Foss until about 12:30.

May 23—I had my English Comp. finals at 8:00. I finished about 30 minutes before the two hour exam period was over. I spent the next exam period studying for my Am. Govt. exam which was in the afternoon. After my Govt. final, which took all of two hours, "A" Company had to turn in their overcoats. From 4:00 until 6:30, I jogged it and the only reason I got up was Foss wanted me to go to the Dari Creme to get our supper. He paid for my supper since I couldn't make it to work. I made it to bed around 2:00 a.m. Believe it or not, I wasn't tired.

May 24—After breakfast, I had to go to the Health Center to have the stitches taken out of my leg. After that episode I decided I had better clean up our room because Colonel Perry didn't think it was too clean when he came in yesterday. I took my I. R. test which didn't seem too hard. I finished it fairly early. After chapel, I spent some more time to check out on a supper. During C.Q.'s, I went down town to the movie. The movie was over around 10:15 and I had to scamp back to the barracks.

May 25—Today was "Rat's" day where all the new boys are assigned all the command and key positions in the corps. Parade was really hilarious. At the stuff officers, company commanders, etc., didn't get the "Rat" commanders what to do in parade. They really looked funny out there, like a bunch of chickens with their heads cut off. "Rat's Day" started at 7:30 and ended immediately after parade. After parade, and on through taps, I studied for my accounting and European History finals that are tomorrow. I made it to bed rather early tonight.

May 26—Now there are no more Monday mornings here at Wentworth. That just when I am home I will be getting up earlier to get to work. I won't mind that though. Both of my exams were in the morning so I had the remainder of the afternoon free. Finals won't be entirely over until tomorrow afternoon but mine were all over this morning. Tonight several of us celebrated, now that the year is practically over. I made it to bed fairly late tonight. I've got all morning and all afternoon to sleep tomorrow.

May 27—I slept all morning long and it really felt good. This past week everybody has been knocking themselves out over these tests and now that they are over I feel relieved. Tonight was the college "W" Club banquet at the country club. I had to hurry from there to Lexington High School to Peggy's graduation. I barely made it on time. I didn't get back to the barracks until 11:00 p.m. I doubt if I'll get into any trouble over it though.

May 28—I had my only Wednesday class all semester, this morning and that was because I didn't have class yesterday. For assembly, we heard announcements. Well, this is my last year at Wentworth, having spent 3½ years here at the school. For drill we practiced outdoor parade and all the outdoor Commencement activities. Today everybody started packing their boxes, trunks, etc., for the trip home. I've been sending things home for the last few times that my folks came down. I've got very little left to send home. During C.Q.'s, we packed and packed, and packed.

May 29—"Late BRC as Usual". Well, no more late BRC's here. I'll get them on Sundays at home from now on. I only had one class today and all Capt. Hewitt did, was give us our papers back. Then we "shot the bull" for the remainder of the hour. The sun was out this morning so I took advantage of it by lying out in it for four hours and getting some kind of tan before I go home. We had military C.Q.'s tonight so everybody could pack, not just the guys who had permits.

May 30—My folks got here around noon so I took a supper and went out to eat with them. I had four classes all day long, and three of them were in the morning. I took a supper tonight and went out to eat with Mom, Dad, and Kim. Tonight was the band concert which was good as usual. I made a stereo tape of the concert on Foss's tape recorder. After the concert, I went up to the hotel with my folks and sat around and talked until about 11:00 p.m., when I had to get back to the barracks.

May 31—This morning we turned in our lock boxes and anything else that had to be turned in. I ate lunch in the dining hall because they wouldn't let us take noon soupsies. They had visitors' buffet at the Country Club. At 2:00, we had the awards ceremony. It lasted 2½ hours. I was really tired of sitting by 4:30. I took a soupie and went out to eat with them. I had four classes all day long, and three of them were in the morning. I took a soupie tonight and went out to eat with Mom, Dad, and Kim. Tonight was the band concert which was good as usual. I made a stereo tape of the concert on Foss's tape recorder. After the concert, I went up to the hotel with my folks and sat around and talked until about 11:00 p.m., when I had to get back to the barracks.

June 1—I believe that everybody in the entire corps was up early making final preparations to go home. Hearts are beating like wildfire. At 10:30, was the baccalaureate service which lasted about an hour. There were no soupsies at all for lunch. Commencement started at 2:00 and was over around 3:30. Governor Heavens gave the commencement address. The final parade and the flag ceremony were over around 4:30. The flag ceremony was really a tear-jerker. I'm going to miss all the friends I've met here. Col. Stagner made his most welcomed command when he said the 1968-69 Brigade of Cadets DISMISSED.
